EXPERIENCE

FREELANCE WEB DEVELOPER

Financial Tracker Website
May – July 2025

- Built with a modern stack (Next.js, PostgreSQL, Drizzle), this all-in-one financial management web app handles transactions, accounts, and categories, featuring an internal "D Drive" for file storage and robust user role management powered by Clerk.
- Deployed the application on a local server by installing and configuring Linux on a PC.

CONTENT CREATOR (EDUCATION)

Produced programming-related educational content.
May 2025 – Present

- Focusing on topics such as a Next.js tutorial
